

Dear Neighbours,

Please find an update below from the FCCA board of Directors and community partners.

• **INFORMATION OPEN HOUSE - Your local volunteer fire department needs you!**

SATURDAY NOVEMBER 18

Oliver's Landing Community Centre parking lot

10 am to Noon

and

Britannia Beach Fire Hall

1 pm to 3 pm

• **GREEN BIN RETURNS TO FURRY CREEK**

Several of our neighbors have voiced the need for the Green Bin to return to Furry Creek in lieu of the warmer weather we have had.

The bin is slated to return over the next couple of days.

Thank you to Tony Rainbow and the SLRD.

• **FINE PEACE HOLIDAY RECEPTION**

A proposed holiday reception by Fine Peace is on the cards, please look out for an upcoming invitation. The proposed timing is within the first 2 weeks of December from 4 - 7pm.

More information and confirmation to follow.

• **BOARD MINUTES AND DIRECTION**

As a board we have been working to find our footing and set the direction for the coming year and beyond. Attached you will find BoD Meeting minutes from Oct 16 and finance report.

Unfortunately we have been functioning without a secretary and we also recently had another director resign, **so we are actively looking for volunteers to join our board.**

Near Term activities and focus areas of the board are:

- **FCCA Website** - we are focused on finalizing and inviting our community to engage with FCCA via a website being built by a volunteer community member.

- **Open Spaces** - Build a process with the SLRD and Tony Rainbow with a liaison focused on monitoring and keeping scopes of work adhered to. Part of this is also ensure areas like Stonegate gets included into roadside maintenance and areas around Olivers Landing gets the correct treatment

- **Lamp post maintenance** - we will be mapping the state of each lamp post in Furry Creek and any deficiencies so we are ensured uninterrupted light and a safe and clean environment.

- **Miller Cap liaison** - this is to bring awareness to the debris and water which repeatedly flows onto the main road from Logging road and discuss the process to get it remediated and repaired.

- **Sidewalks** - In the new year we will begin a similar process to the lamp post project to ensure our sidewalks are safe and not an eyesore.

- **We intend to build a budget process for both the lamp post and sidewalk maintenance,**

and discuss the financial aspects with the SLRD and Tony Rainbow and subsequently update our members and community on next steps and process

- The Board will meet once informally in December before a Board meeting in January.

Stay well and safe as we enter the holiday season.

Warm Regards,

Peter Jakobsen and your Board of Directors
Chair, FCCA
